

Innovative concept

Are you tired of finishing pipe constructions manually?

Do you want to avoid machines that are difficult to use and do you expect a great result in a minimum amount of time?

Can you simply not get the right finish?

With Finitube® from Cibo, everyone who works with pipe constructions can count on:

- a **unique finish**, even on unfinished tubes.
- a great result in a **minimum amount of time**.
- an abrasive range of **360° with 1 extra abrasive movement**.
- a powerful, handy machine (**1200 Watt**).
- a **handy tool case well-stocked** with replacement belts and accessories.

Craftsmanship and quality

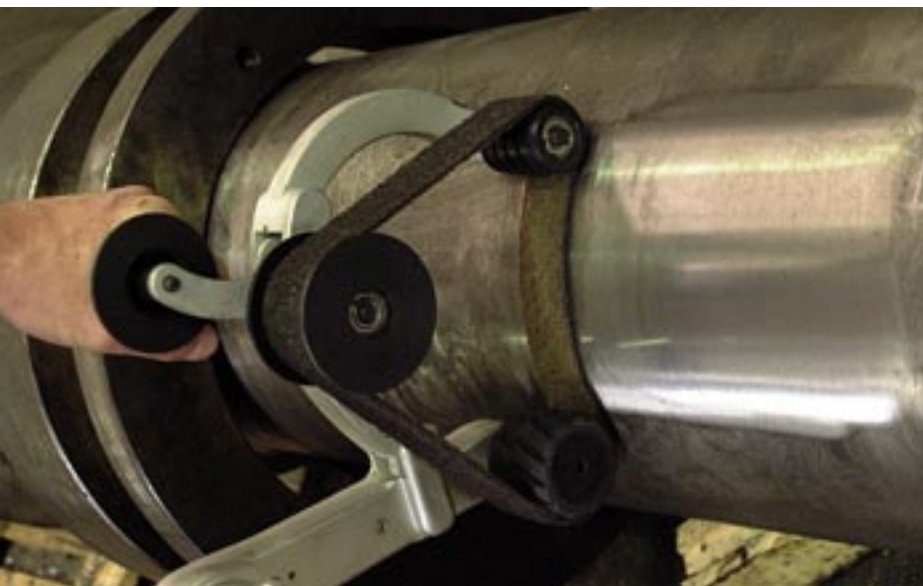

In short, from now on **you can guarantee a perfect finish, even for the most demanding customers.**

The unique Finitube® from Cibo helps every expert where and when needed.

Manufacturers of staircases and designer furniture, metalworkers, the dairy, pharmaceutical and petrochemical industries, etc.: they have all discovered how this useful machine takes finishing quality, speed and efficiency to a higher level.

The result?

Satisfied workers and customers. Don't get left behind!

Qualities

What benefits does FiniTube® offer?

Efficiency

- Just hook it up and straight away you have a sanding range of 270°.
- Anything is possible: pipes up to 125 mm in diameter.
- Perfect belt tracking, even on curves.
- Easy to use, even for the less experienced user.

Comfort

- You'll notice the difference immediately: light and handy to use.
- With only 1 extra hand movement you can sand 360°.
- Belts can be replaced in a jiffy.
- Infinitely variable speed.

Quality

- With this powerful machine – 1200 W – you can give any piece a quick, flexible, even and professional finish.
- You can reach the most inaccessible corners and navigate the tightest curves with ease.

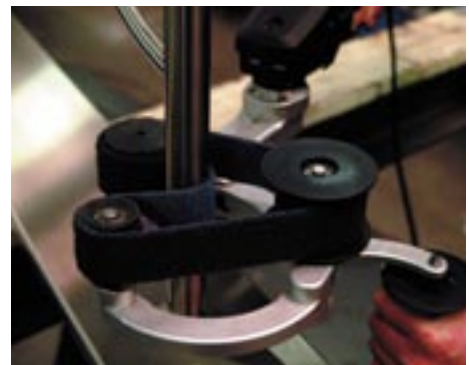

Safety

- Open the handy tool case and set to work straight away.
- Your FiniTube® is ready to use, with all accessories included.
- You can count on the know-how and service of the Cibo tool specialist.

Style

- The FiniTube® combines safety with a smart, attractive design.
- Pick up tomorrow's top sander today!
